Learning, teaching, growing

Senior infant educator Ms Mohamed Elias Ilaheenisha shares three highlights of her career to date

BY MICHELLE BONG

Caring for her little ones — infants and toddlers aged between months and three years — for the past six years have put Ms Mohamed Elias Ilaheenisha on a rewarding career path. Here are three highlights.

Winning two awards over consecutive years

"I won the PCF Achievement (Educator) Award, which is presented to a staff member who has displayed a strong commitment to enhance the learning and well-being of PCF Sparkletots preschool children, in 2017. A year later, I took home the National Institute of Education Leading Foundation Teacher Award, presented for demonstrating a commendable effort in making a difference in the lives of the children under my care.

"The awards recognise my efforts to ensure development-appropriate practices as an infant educator, and provide support to and mentor trainee and novice educators."

Being an Early Childhood Development Agency (ECDA) Professional Development Programme (Educators) participant

"I was nominated to attend this three-year, 180-hour structured professional development (PD) programme by my centre principal Ms Sharifah Nazihah. The programme, which started last July and will end in June 2021, will prepare me to take on more senior job roles by deepening my professional knowledge and improving the quality of my teaching practices to work with children across a wider age range. I can also choose from a variety of PD activities and complete them at my own pace."

An ECDA Awards 2019 – Promising Early Childhood Educator award nomination

"To win this has been a career goal I hope to achieve. My biggest motivating factor is knowing my efforts are being appreciated both inside and outside the classroom. I am grateful for the acknowledgement of my contributions, and that my professional leadership has been respected and professional development supported. I would like to thank my district head Mr Tan Kah Teo, executive principal Ms Cheah Chai Luan and Ms Sharifah for their unwavering belief in me."

Executive Appointments

SingHealth HQ

DEFINING TOMORROW'S MEDICINE

The SingHealth Duke-NUS Academic Medical Centre draws on the collective strengths of SingHealth and Duke-NUS Medical School to drive the transformation of healthcare and provide affordable, accessible, quality healthcare. With over 40 clinical specialties, a network of acute hospitals, national speciality centres, polyclinics and community hospitals, it delivers comprehensive, multi-disciplinary and integrated care. To enhance community care, the new Outram Community Hospital on SGH Campus will be completed in 2020.

CLINICAL RESEARCH NURSE
You will participate in trial procedures as part of the study team in clinical research. You will assist the investigators in performing clinical trial procedures professionally, such as accurate collection of blood samples and other biological specimens, and precise data recording. You will also perform intensive monitoring of research subjects in early phase clinical trials in compliance with ICH-GCP [International Conference on Harmonisation of Technical Requirements for Registration of Pharmaceuticals for Human Use (ICH) of Good Clinical Practice (GCP)].

Requirements:

- Bachelor's Degree in Nursing or Diploma in Nursing equivalent
- Recognised nursing qualification and registered with Singapore Nursing Board (SNB) with valid BCLS certificate
- At least 2 years' clinical nursing experience; clinical research experience preferred
- Nurses with prior experience in chemotherapy and cardiology trained ward nurses preferred
- Knowledge of ICH-GCP
- Meticulous, possess good interpersonal and organising skills and flexible to perform shift involving night duties and weekends
- Experience in performing Venepuncture and Cannulation
